SECTION IV STATEMENT OF WORK

4.1 Background and Scope: Pursuant to a Lead Hazard Control grant awarded to KDHE by the Department of Housing and Urban Development (HUD), KDHE seeks a contractor or contractors to eliminate or reduce the hazards of lead-based paint in housing units located in Wyandotte County, Kansas. KDHE will conduct inspections and risk assessments on qualified housing units, and will specify what work is required for each housing unit. KDHE plans to seek bids on multiple housing units at the same time, but bids will be awarded separately for each housing unit. Bids will be awarded to the lowest responsible bidder. No Contractor may be awarded more than 5 contracts (housing units) at any one time. KDHE will, at their discretion award properties based on the lowest bid price but awards will also be distributed taking into consideration the minimum of (5) housing units per contractor and award contracts in the best interest of KDHE to minimize costs and maximize scheduling opportunities. Properties will not be awarded to any contractor who is 30 days or more past the contract completion date on one or more awarded properties until work has been completed on those properties and accepted by KDHE.

4.2 Services to be Provided: Contractor will conduct lead hazard abatement work and/or interim control activities, as specified in the scope of work provided by KDHE for each individual housing unit. Contractor must be a licensed lead activity firm in Kansas to bid on abatement work in housing units. To be eligible to bid on any housing unit, a representative of the potential Contractor must attend a pre-bid walk-through for that housing unit. Contractor will follow all applicable safety and health requirements when working on housing units pursuant to this grant. Contractor will work closely with KDHE staff to schedule work on each housing unit, to minimize the amount of time that residents cannot use their home or rental property.

4.3 Deliverables: Contractor will conduct work in accordance with the scope of work (property specifications) provided by KDHE for each housing unit. All work will be done in compliance with applicable state and federal laws and regulations, as well as the General Specifications of Project Lead-Safe KCK. The General Specifications may be found on the Internet at www.unleadedKS.com/hud/contractor_info. Contractor may be required to move furniture or other residents' belongings, before conducting lead abatement work or interim controls. All work areas and surrounding areas must be thoroughly cleaned after each work day, so that residents can use their property; however, this requirement does not apply to containment areas that are sealed, if work is to continue within that area the next work day.

Upon completion of the required work and final cleaning for each housing unit, Contractor will notify KDHE that the unit is ready for final inspection and clearance testing. KDHE will notify Contractor of any problems or deficiencies identified during the clearance inspection. Contractor will not be paid until KDHE has given final clearance for that housing unit. Contractor will submit a separate invoice to KDHE, for each housing unit, as required in Section III of this IFB.

4.4 State Resources: KDHE shall provide the following resources to the contractor:

- Detailed specifications on the location and type of work required for each unit.
- Opportunity to view the property during the required walk-through for each unit.
- Periodic inspection and oversight of the work conducted by the Contractor, to ensure that work is being done properly and safely, by qualified staff.
- Staff to conduct the final inspection and clearance testing.

4.5 Timeline: In the property specifications for each housing unit, KDHE will show the number of workdays allowed for each housing unit. If the Contractor exceeds the number of workdays allowed, the final payment to the Contractor will be reduced by \$80 per day. If the Contractor's work does not pass the initial clearance test, the final payment to the Contractor will be reduced according to the actual costs of re-testing. Upon award of the contract, Contractor will work closely with KDHE staff to determine the start date for work on each housing unit.

To reduce inconvenience to the property owner or resident, KDHE will coordinate and schedule work to be performed with each property owner or resident in accordance with the information provided by each contractor on the Lead Abatement Project Notification Form that is required to be submitted by each contractor and filed in the Topeka office. Contractors that do not adhere to the schedule submitted on the Lead Abatement Project Notification Form and arrive at the work site late or do not arrive at all, will be assessed a fee of \$80.00 for each incident. The contractor must give sufficient advanced notice to either the Kansas City or Topeka Project Lead Safe office if a change in schedule will be necessary. Sufficient advanced notice shall be defined as one day prior to the date in which the work schedule will be affected or by 9:00 am on the day that the work schedule will be affected. It shall be the contractor's

responsibility to document any information in regards to the date, time and/or name of the individual that scheduling changes are communicated to as proof of sufficient advanced notice in the event of a dispute.

Should scheduling changes occur due to inclement weather and sufficient advanced notice cannot be given by the contractor, KDHE will take those instances into consideration before assessing fees.

Contractor shall be awarded an additional 20% of the original contract amount if the work is completed, ready for clearance and passes clearance within 21 calendar days of the contract award date.

- 4.6 Payment:** Payment to the Contractor, within 30 days after Contractor submits a complete, valid invoice for the completed housing unit.
